of life for
the **citizens we serve**

Data Disclaimer

For the purposes of this report, data is extracted from the RMS using specific parameters. The results may differ slightly from other reports, such as Uniform Crime Reports (UCR), which measure the same variables but have slightly different search parameters, filters, and/or methods. The following summarizes the most common attributes of this report that result in differences in reporting:

- The data in the report reflects what was available at the time of extraction. It is common for numbers to change over time for various reasons. Most commonly:
 - Final data entry by records can be delayed due to the RTO status of a case.
 - Clerical errors can be discovered, leading to corrections being made at a later date.
- Some categories in this report use a hierarchy rule. This means that the offense with the highest offense code number in an incident is the only offense counted. Other reports may apply the hierarchy rule to certain offenses. For instance, UCR counts every occurrence of Part I violent crimes in an incident (murder, rape, robbery, aggravated battery). Each slide should note the method used.
- This report includes the property crime of arson which is excluded from other reporting.
- Crimes are extracted based on the date and time they were reported. Other reports may use the earliest and/or latest date and time the crime may have occurred.

Monthly and yearly projections are calculated using different methods. Projections will have a higher degree of error when the time period used to project is small (i.e. projecting an entire year based off the first two weeks of that year).

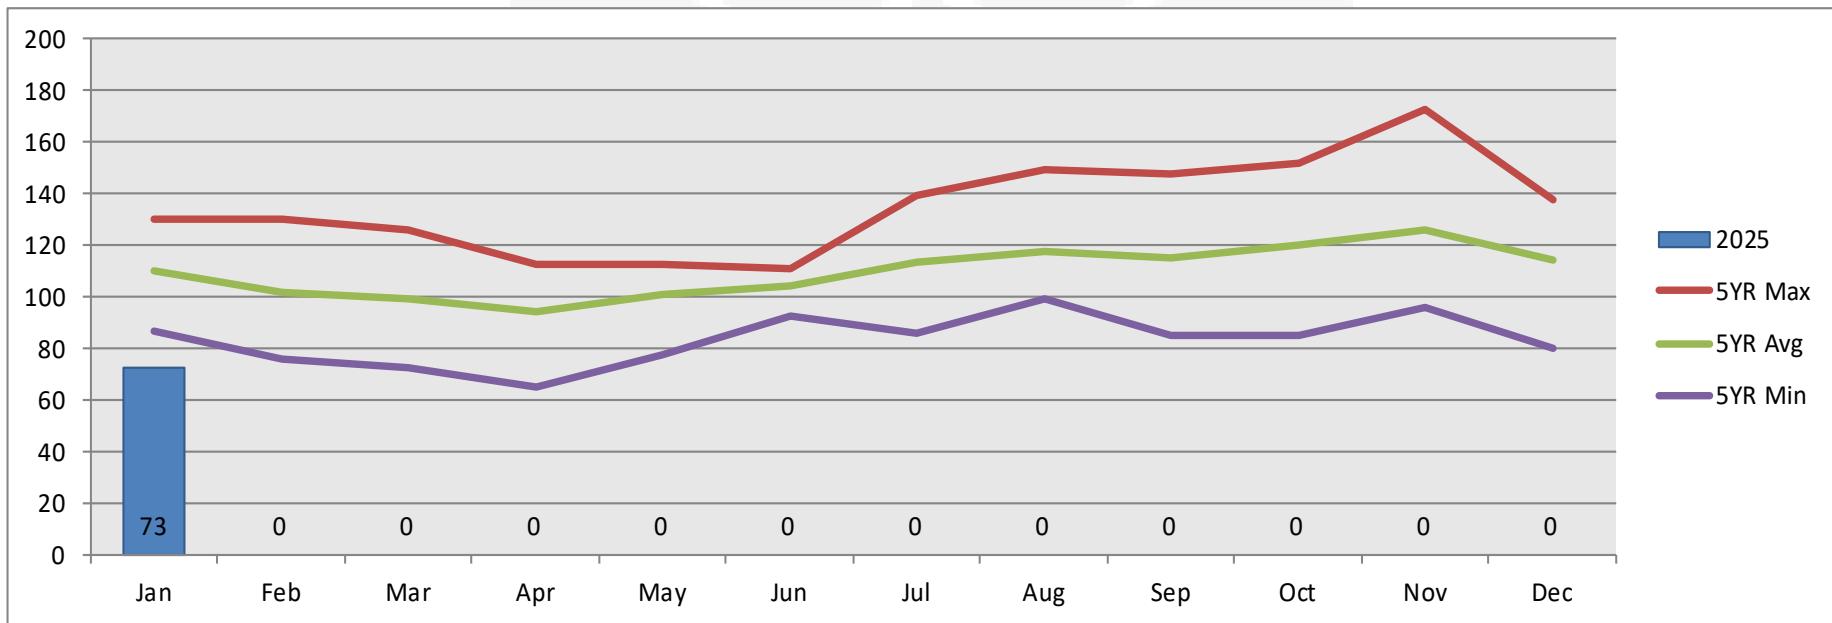

Part I Crime

Offense Codes: 0100-0810

All Data As Of: 2/10/25 12:00 AM

- Part I crime in January 2025 was 33.9% below the 5 year average.
- Compared to January 2024, there was a 16.1% decrease.
- In January, Part I violent crime and Part I property crime were both below the 5 year average.

DUIs

Offense Code: 2110

All Data As Of: 2/10/25 12:00 AM

- The number of DUIs for January 2025 was 62% below the 5 year average for January.
- A significant factor to this drastic decrease in DUIs could be due to the number of days that roads were practically undriveable due to significant snowfall.

	Jan	Year to Date	Yearly Total
2020	22	22	168
2021	10	10	191
2022	19	19	208

2025	7	7	
% Change	-63.2%	-63.2%	-62.6%
Yearly Total Projection:			78

RILEY COUNTY POLICE DEPARTMENT

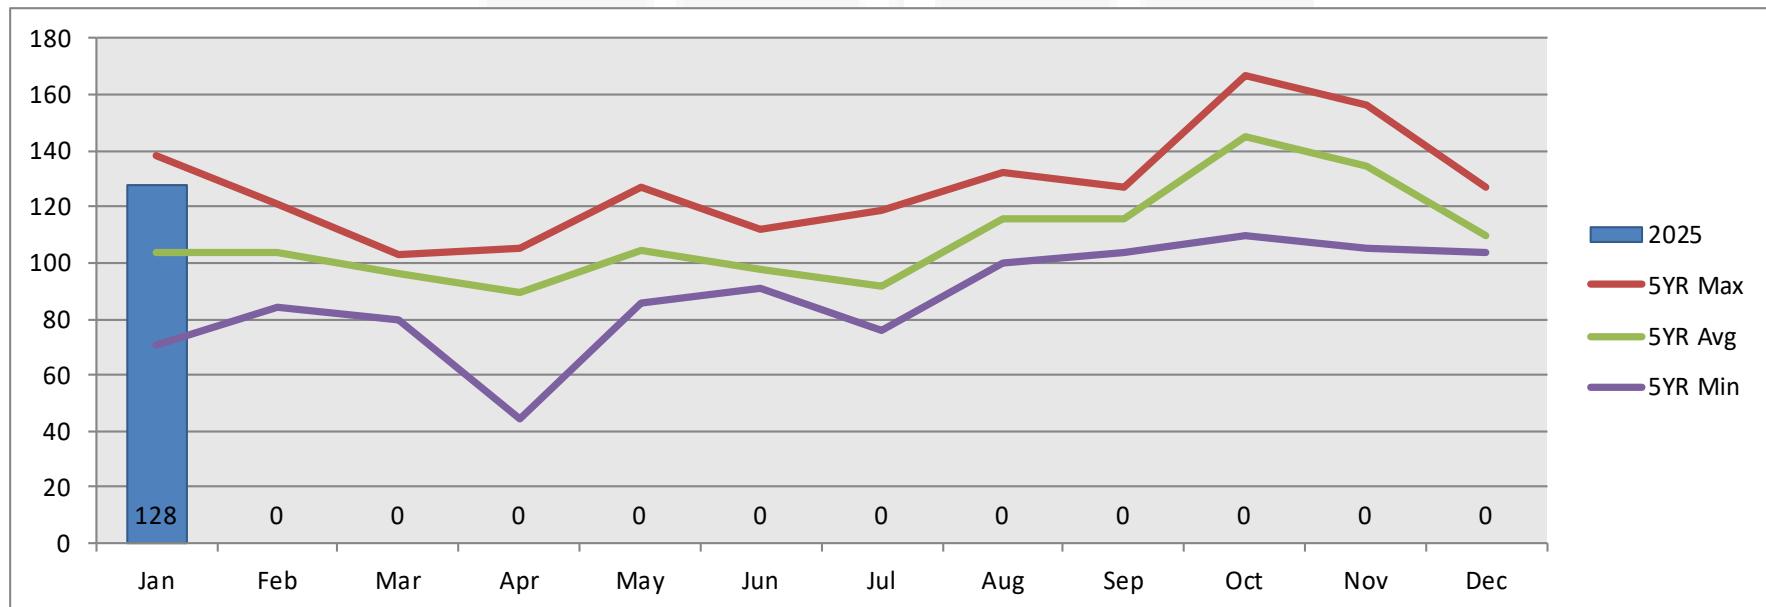

Traffic Accidents

Offense Codes: 5000-5139

All Data As Of: 2/10/25 12:00 AM

- The number of traffic accidents in January 2025 was 23.8% above the 5 year average.
- During January 2025, there was an above average amount of snowfall in Riley County that lead to about 21 days of snow on the ground. The significant snowfall and multiple negative and single digit over-night freezes is likely a predominate contributing factor in the number of traffic accidents notably higher than the historical January totals.

	Jan	Year to Date	Yearly Total
